

Dhananjay Tailor

dhananjaytailor18@gmail.com |  | [Linkedin](#) | [LeetCode](#) | [GitHub](#) | [Portfolio](#)

TECHNICAL SKILLS

Core: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems

Programming Languages: C, Java, Python, JavaScript

Frontend & Backend: NodeJS, ExpressJS, ReactJS, NextJS, REST API, Tailwind CSS, FastAPI

Tools & Platforms: Git, GitHub, Docker, Google Colab, AWS, Postman, Jenkins

Databases: MySQL, MongoDB, PostgreSQL

EXPERIENCE

Software Developer Intern

January 2026 – Present

Allianz Cloud

Vadodara, Gujarat

- Developed web applications using NextJS, ReactJS, and Python for cybersecurity platforms.
- Collaborated in a team to build and deliver client-focused projects with API-driven integrations.

Python Developer Intern

November 2025 – January 2026

Infosys Springboard

Remote

- Developed SkillGapAI using BERT for NLP-based resume-JD gap analysis, and recommendations.
- Collaborated in daily meetings on feature design, implementation, and system improvement.

Administrative Staff

February 2021 – June 2021

Enbee Education Center Pvt. Ltd.

Vadodara, Gujarat

- Assisted clients with college applications and visa documentation while maintaining records.
- Managed back-office operations and client coordination to ensure smooth operations.

PROJECTS

Nous

[GitHub](#)

Python, C#, Socket Programming, MySQL, Avalonia UI, SSL/TLS, Gemini AI, RAG

- An AI desktop app to run Windows CMD commands for remote execution using RAG and LLMs.
- Built a secure remote system management solution with C#, Flask API, MySQL, and SSL/TLS.
- Implemented automated IP and hash authentication in C#, enabling hourly secure client updates.

Get Me A Chai

[Live](#) | [GitHub](#)

NextJS, Tailwind CSS, MongoDB (Mongoose), NextAuthJS, API Routes, Razorpay API

- Developed a crowdfunding platform in NextJS with MongoDB-backed creator dashboards.
- Integrated Razorpay payments so supporters can contribute directly through the platform.
- Added Google/GitHub authentication with NextAuth and deployed the production build to Vercel.

Linkium

[Live](#) | [GitHub](#)

NextJS, MongoDB, Tailwind CSS, JWT, Bcrypt, Nodemailer, API Routes

- A “link in bio” app that lets users sign up, manage multiple links, and share a public profile.
- Designed secure authentication with JWT tokens, hashed passwords, email-based password reset protected API routes, and link management features.

EDUCATION

Parul Institute of Engineering & Technology

July 2022 – Present

Computer Science & Engineering, Bachelor of Technology

Vadodara, Gujarat

CGPA: 8.34

CERTIFICATIONS

- JPMorgan Chase & Co. Software Engineering Job Simulation – **Forage**
- Google - Ask Questions to Make Data-Driven Decisions – **Coursera**
- AWS Cloud Practitioner Essentials – **AWS**
- Database and SQL – **Infosys Springboard**
